THE Captain Superintendent of Police in his annual report again raises the question of the licensing and registration of servants. "Several families." Mr. May says, "were "boycotted by their chair coolies during the tions, and distinguished herself by delivering still able to get food from the village, but a "year, because the coolies objected to do a "reasonable day's work. Coolies who are "dismissed for misconduct or dishonesty "find re-employment as readily as do well "conducted and honest men. Under a "system of licensing and registration such "would be impossible." The impossibility which Mr. May so airly assumes would depend upon the nature of the system he proposes. Until that system is formulated it is impossible to discuss it in detail, but we very much doubt whether any system could be devised that would fulfil all that Mr MAY claims for the one he has in his mind. His idea, judging from the above quoted extract from his report, appears to be that if a coolie is dismissed for misconduct he should be prevented from taking other employment But who is to be the judge of the misconduct? Not the employers, for employers are sometimes harsh and unceasonable, and if an employer is the accuser he ought not to be the judge. An employer has the right of dismissal if he is dissatisfied with a servant. been committed he can prosecute the supposed offender before the proper tribunal. But to constitute the employer himself the tribunal to determine the guilt of the ac-* mensed of the right to continue to earn his | question of the marital relationships in some of | rebels had sentries at the mouth of the harbour, living would be an outrage on justice. That, however, seems to be what Mr. MAY thinks should be done. Amongst Chinese servants. especially amongst chair coolies, there is a large proportion of truculent and insubordinate men who cause much trouble and annoyance to their employers, but registration has not hitherto been found an effective corrective. The system was tried for it seems also to have broken down in Coylon. A very rigid system of registration was some years ago brought into force by our French neighbours in Tonkin; whether it is still in force or not we do not know, but judging from the constant complaints that apppear in the newspapers it would seem been voted the most popular in their repertoirs.

Hongkong. The servant difficulty is as old

we fear its solution will not be found any easier in Hongkong than elsewhere. Nodoubt it would be very agreeable if the Government would provide as with an unlimited supply of servants who, like Lady. Jane, would be as good as gold and always do what they were told; but we do not believe the Government, will ever be able to do anything of the kind.

THE Customs returns for the fourth quarter of 1897 show that trade is making substantial progress at Wuchow. The total revenue collected was Tls, 41,080, as against Tls. 36,241 in the previous quarter, or an increase of thirteen per cent., and to this amount transit dues contributed Tls. 10,198, as against Tis. 8,383 in the previous quarter. kerosine, the amount imported during the only 275,070 gallous in the preceding gether with the staff, numbered 34 souls, inquarter. In piece goods there has been a falling off, only 26,642 pieces of cottons having been imported in the October December quarter, against 45,531 pieces in

the July-September quarter, while weellens fell from 5,239 pieces to 1,622 pieces. Metals on the other hand increased from 1,872 piculs to 2,628 piculs. It is rather disappointing to find that the piece goods trade is not making more progress, but corresponding quarters are rather brief periods on which to base comparisons. Possibly goods were rushed up a little too rapidly on the opening of the port, leaving a stock in hand which had to be cleared off in the following quarter.

REBELLION IN THE PHILIPPINES.

EXCITING TIMES AT BOLINAO TELEGRAPH STATION.

SPANISH TROOPS SURPRISED AND MASSACRED.

The Bolino staff of the Eastern Extension Telegraph Company had rather an exciting time during five days last week owing to rising of the native against the Spanish Government, the station having been besieged by the natives on account of some Spanish soldiers taking refuge there, tolograph office and staff's quarters being the strongest building offering any chance of defence in the place. The position of the Company's staff was most trying, owing to the fact The principal item in the import trade is of their being on friendly terms both with the rebellions villagers and the officials and soldiers of the Government within the building, who, tonews of the events as they occurred are best given in the words of Mr. Pattie, the Superintendent of the Company, and his staff, who reported the same by wire to the Manager of the Company in Hongkong, to whom we are indebted for these details :-7th March.-About two c'clock this morn-

The rest of the soldiers consisting of eight men, escaped to our station, which we have barricaded as well as we can. was available on the dat not leave before 4 p.m. they would attack. We told them that we could not leave the Station, but would observe strict neutrality, and at the same time told them we could and have hopes that some arrangement will be concluded so that the rebels allow soldiers to leave in boat. The Spaniards in village and priests managed to escape in a boat, but don't know where they have gone: the rebels are ontheir track, and, if they catch them, they will all be killed. Report says that there are about 400 rebels. They have sont twice to tell us that we will not be molested in any way, but if we cannot get soldiers away, we will have a lively time of it. Cannot get any assistance from Manila, as line is cut, and I suppose they have out it in many places. It is reported that five of the surrounding villages have also risen. is the Bolingo people who are in arms and as we have always been on good terms with them they don't want to burt us. (When these words were being signalled to Hongkong the rebels got into the grounds and the staff were advised by Hongkong to clear out of the building if they could do so. This was, however, not necessary as the soldiers were able to drive the rebels back with a few shots).

At 4.15 p.m., Bolineo signalled .- "We notice the European women and priests are captured and let back to the village; but two Spaniards seem to have been killed."
